

ASSIGNMENT-3

Submission date:

1. Explain Absolute loader with example.
2. What is program relocation? How relocation is performed by linker? Explain with example
3. In brief explain relocating loader.
4. What is overlay? Explain linking of overlay structured program.
5. Explain different loading schemes.
6. Explain types of grammar.
7. Explain top down parser and bottom up parser.
8. Explain language processor development tools.
9. Explain recursive descendent parsing algorithm.
10. Explain conversion of NFA to DFA with eg.
